### **The Plan for El Paso-City-Wide Land Use Goals**

All applications for detailed site development plan shall demonstrate compliance with the following criteria:

### **Fire Department**

Fire Department recommends approval with condition: Maintain Secondary access at 20 feet width.

### **El Paso Water Utilities**

We have reviewed the site plan request above and provide the following comments:

1. The Previous Owner/Developer of this Property entered into a Development Agreement with the El Paso Water Utilities – Public Service Board (EPWU-PSB) to construct the proposed water mains to provide service to the entire project. EPWU issued Partial Final Acceptance on June 6, 2005 for the water facilities that are located within the existing phase of the project. The water mains along the access road within the new proposed phase have not received Final Acceptance and are not connected to the existing mains. No water service is available to the new phase of subject development until the current Owner/Developer coordinates with EPWU the reactivation and assignment of the Development Agreement and finalizes the construction of the water facilities.
2. The current Owner/Developer of this Property is to submit to EPWU-PSB an application for service under the new improvement plans and detailed site plan.
3. Previously, the portion of the subject property under consideration was intended to be developed into 17 quadruplexes with a total of 68 water meter services. The site plan shows 12 quadruplexes with a total of 48 water services, a reduction 20 water services. The current Owner/Developer is to provide to EPWU engineering a copy of the site plan showing the location of the existing water service connections, noting on the plans the location of the water services that are to remain to serve each of the quadruplexes and the location of the surplus water services that are to be eliminated completely by the Utility Contractor as the result of this site plan.
4. No Utility work is to be performed until the updated Development Agreement has been assigned to the current Owner and has been executed by EPWU and EPWU has approved the new Utility Contractor.

### **CITY PLAN COMMISSION OPTIONS**

The City Plan Commission may consider the following options and additional options that it identifies when reviewing the special permit and detailed site development plan application:
